

Message from China Committee on Religion and Peace

COVID-19 pandemic is spreading all over the world, and we totally agree with R/P's appeal that to overcome this disease, we should stand together in spirit and with action.

The positive sign and initial success in preventing and controlling COVID-19 in China has been achieved after hard joint efforts of all Chinese people. But still, we are also facing some new situations specially imported infected cases. CCRP would like to share China's experience of fighting against COVID-19 with all family members of R/P and ACRP, which we could say in some way, are traded for Chinese people's life and blood.

Please find the Clinical Protocols for the Diagnosis and Treatment of COVID-19 V7 in below links:

<https://covid19.alliancebrh.com/?from=groupmessage&isappinstalled=0>

<https://covid-19.chinadaily.com.cn/>

Hope those could offer much help to all our friends.

To fight against this global challenge, CCRP believes that we still have a lot to do, including standing against all forms of hatred and discrimination arising from fear, intolerance and lack of understanding.

Let us pray together for the shared public health well-beings for all mankind.
